

Bill Summary
2nd Session of the 58th Legislature

Bill No.:	SB 1535
Version:	INT
Request No.:	2867
Author:	Sen. Pugh
Date:	01/23/2022

Bill Analysis

SB 1535 repeals a section of law establishing the Oklahoma Teacher and Leader Effectiveness Evaluation (TLE) System. It removes language regarding confidentiality of records related to TLE and salary schedules and incentive pay plans that reflect TLE ratings. It modifies definitions related to teaching personnel to remove references to TLE ratings. The bill also allows rather than requires school district boards of education to maintain and annually review a written policy of evaluation for teachers and administrators. It removes language requiring the policy to be based on the provisions of the TLE and instead directs the optional policy to be based on minimum criteria established by the school district board of education. The measure removes language regarding the dismissal or nonreemployment of individuals in certain positions if they receive certain TLE ratings. It removes language regarding the issuance of certain teaching certificates to individuals who have received certain TLE ratings. It also repeals language directing school districts to base retention or reassignment decisions on TLE ratings.
