

Bill Summary
1st Session of the 58th Legislature

Bill No.:	SB 164
Version:	INT
Request No.:	84
Author:	Sen. Stanley
Date:	12/18/2020

Bill Analysis

SB 164 authorizes participation in an experimental treatment program in life-threatening emergencies without informed consent, provided the treatment is approved by an accredited institutional review board as well as approval and continuing review of the research activity has approved both the research activity and a waiver of informed consent. In no case shall an experimental treatment regimen be approved on a pregnant patient.
