Bill Analysis

SB 1686 creates a refundable income tax credit equal to 50% of adoption related costs to adoptive parents. Such costs shall include relevant court fees, fees paid to adoption service agencies, prenatal and natal medical expenses of the biological mother pursuant to an adoption agreement, and costs for home study. The credit is capped for individual claims at \$5,000.00 for each certificate of decree of adoption. The cap for statewide credits awarded is set at \$5 million per year. Individual credits shall be reduced by a percentage amount equal to the amount exceeded in the previous fiscal year in the event the total amount of credits awarded exceeds the statewide cap.
