Bill Analysis

The CS for SB 1693 requires applicants for a medical marijuana grower or processor license to acquire a water use permit by the Oklahoma Water Resources Board business license prior to initiating a commercial growing or processing operation or to acquire an official statement of permission from the county, municipality, or other political subdivision that provides water if the commercial growing operation or processor uses rural or municipal water. Additionally, the measure provides that if such a business cannot acquire a water permit within 90 days after applying for the permit, the Medical Marijuana Authority shall revoke the medical marijuana business license.
