

**Bill Summary**  
2<sup>nd</sup> Session of the 58<sup>th</sup> Legislature

<b>Bill No.:</b>	<b>SB 1853</b>
<b>Version:</b>	<b>INT</b>
<b>Request No.:</b>	<b>3098</b>
<b>Author:</b>	<b>Sen. David</b>
<b>Date:</b>	<b>01/30/2022</b>

**Bill Analysis**

SB 1853 sets a hydrogen fuel production standard that will serve as an annual goal to be reached each year through 2028 at 2 million metric tons. The measure directs every qualified hydrogen fuel production facility that produces hydrogen fuel to report to the Corporation Commission by March 1 each year describing the amount of hydrogen fuel produced in the preceding calendar year. The Commission is directed to begin collecting the reports no later than March 1, 2024. The report shall also be submitted to the President Pro Tempore of the Senate, Speaker of the House, and Governor no later than May 1.
