

Bill Summary
1st Session of the 58th Legislature

Bill No.:	SB 291
Version:	INT
Request No.:	80
Author:	Sen. Haste
Date:	01/06/2021

Bill Analysis

SB 291 modifies the college preparatory/work ready curriculum requirements for graduation to include a science, technology, engineering and math (STEM) block course taught at a comprehensive high school or technology center school as an option to meet the mathematics and laboratory science units or sets of competencies.
