Bill Analysis

SB 422 modifies the purpose of the Oklahoma Agriculture Enhancement and Diversification Program by removing the requirement for the program to develop new or expanded benefits of agricultural events and providing for value-added agriculture grants instead of cooperative grants. The measure also removes the requirement for the program to award marketing and utilization grants. Responsibilities of the program are expanded to include grants and loans to veteran and young farmers. Additionally, the measure subjects any advisory group of reviewers used to analyze and make recommendations for projects for approval by the Board to the Oklahoma Open Meetings Act.
