Bill Analysis

SB 520 removes the requirement for the Governor's Council on Workforce and Economic Development to coordinate with the State Department of Education, the State Regents for Higher Education, the State Department of Career and Technology Education, the Oklahoma Board of Private Vocational Schools, the Secretary of State, and business entities throughout the state. Instead, the measure requires the Council to establish a program that combines instruction at a worksite during paid employment with classroom education, an increase in hourly wages for the employee during work-based learning, and culminate in an industry credential as defined by the Workforce Innovation and Opportunity Act.
