**Bill Analysis**

The FS for SB 541 prohibits any political subdivision, school, technology center, or institution within The Oklahoma State System of Higher Education from mandating the closure or cessation of operation of any business, public building, school, or other place of public accommodation unless the leading consensus of available scientific literature shows that the design of the physical location or the activity conducted by the entity will significantly contribute to transmission of the disease and that such design or activity cannot be modified to reasonably reduce the risk of transmission of the disease.
