Bill Analysis

SB 746 directs the State Department of Health to create a database tracking and providing to long-term care administrators data showing occurrences of no call/no show by certified nurse aides and home health aides, disciplinary action imposed, and occurrences of refusal to reimburse the costs of a no call/no show. The Department shall investigate reported instances of no call/no shows and record verified instances of such events in the database. The Department shall then issue a warning to the offending nurse aide and may suspend such aide's license for a period not to exceed 90 days if the aide commits another no call/no show within 3 years of the first recorded incident.
