

Fiscal Impact
2nd Session of the 57th Legislature

Bill No.:

SB 1237

Version:

INT

Author:

Sen. Dugger

Date:

02/11/2022

Fiscal Analysis

SB 1237 adds traumatic brain injury and stroke to the list of conditions that authorizes DPS to require a licensee to submit to a physical. These medical conditions would be captured under the category of “other medical conditions that may affect the safe operation of a motor vehicle” on the DL application. As such, DPS would not need to change any forms or system programming to implement the provisions of this bill.

FY’23 Impact: None

Full Year Impact: None
