

Fiscal Impact
2nd Session of the 57th Legislature

Bill No.:

SB 317

Version:

CS

Author:

Sen. Daniels

Date:

03/02/2021

Fiscal Analysis

SB 317 would not directly impact general revenue. Senate Bill 317 would create a “Student electrical intern” certification for qualifying individuals. The Construction Industries Board estimates that the software required to process the additional certification would cost around \$10,000. With a \$5 application fee and \$20 license, there would need to be approximately 400 new applicants to cover the additional software cost.

FY’22 Impact: None

Full Year Impact: None
