

Fiscal Impact
2nd Session of the 57th Legislature

Bill No.:
Version:
Author:
Date:

SB 317
INT
Sen. Daniels
02/18/2021

Fiscal Analysis

SB 317 would not directly impact general revenue. Senate Bill 317 would create a “Listed electrical apprentice” and “Student electrical intern” license and certifications for qualifying individuals. The Construction Industries Board estimates that the software required to process the additional licenses would cost around \$10,000 for each new type of license. With a \$5 application fee and \$20 license, there would need to be approximately 800 new applicants to cover the additional software cost.

FY’22 Impact: None

Full Year Impact: None
