

Fiscal Impact
2nd Session of the 57th Legislature

Bill No.:	SB 617
Version:	FS
Author:	Sen. Allen
Date:	03/11/2021

Fiscal Analysis

SB 617 adds the transfer of the powers and duties of the Weights and Permits Division within DPS to the Dept of Transportation. The language from the previous version changing the regulating entity of the Household Goods Act of 2009 from the Corporation Commission to the Department of Public Safety remains the same. The FS language will have no additional fiscal impact. The only immediate additional cost to the state would be from the move of employees, equipment, and technology from one location to another and would likely not exceed \$50,000. However, until the full inventory of equipment and technology is known, OMES is unable to give an exact estimate. The actual cost of operations for the program itself would be ongoing and funding would need to shift from OCC to DPS to incur no service interruptions.
