

BILL SUMMARY
1st Session of the 58th Legislature

Bill No.:	HB1032
Version:	SAHB
Request Number:	
Author:	Rep. Mize
Date:	5/3/2021
Impact:	See Analysis Below

Research Analysis

The SA to HB 1032 adds the following House and Senate co-authors to the bill:

House - Roberts (Eric) and Rosecrants

Senate – Bullard

The SA to HB 1032 restores the title.

Prepared By: Dan Brooks

Fiscal Analysis

According to the Oklahoma Department of Health, HB 1032 in its current form would eliminate license for homemade food products defined as either “Non-time or temperature-controlled for safety” or “Time or temperature-controlled for safety” under certain circumstances along with eliminating licenses for honey and honeycomb products when producers produce less than five hundred gallons annually. According to the Department of Health the loss of new licenses for both would be \$425 per licenses and the loss of renewal licenses for both would be \$335. If the Department of Health lost between 20 and 50 new licenses it would \$8,500 - \$21,500 loss in revenue and if it lost between 200 and 500 renewal licenses it would be \$67,000 - \$167,500 loss in revenue. This means the annually, the Department of Health may lose \$75,000 - \$188,750 in revenue if HB 1032 passes in its current form.

Additionally, under the increase enforcement responsibility at the Department of Agriculture, Food and Forestry, it would require about 1/4 to 1/3 of a new position requiring additional funding of \$16,840.00 to \$22,453.17.

Therefore, depending on the full impact of HB 1032, the State’s budget and appropriations could see a sizeable impact.

The Senate amendments do not affect the fiscal impact of this measure.
