**Research Analysis**

The proposed committee substitute for HB 1933 defines *state average unemployment rate* as the average of the three months for the most recent third calendar year quarter or the seasonally adjusted unemployment rates as published by the U.S. Office of Unemployment Insurance. The measure further provides that the duration of unemployment compensation claims submitted during a calendar year is limited to:

- 12 weeks if the state's average unemployment rate is at or below 3 percent;
- An additional week may be added in addition to the 12 weeks for each 0.5 percent increment in the state's average unemployment rate about 3 percent; or
- Up to a maximum of 20 weeks.
