FOR THE COMMISSION

The revenue impact provided herein is an estimate of the potential impact on the collection or apportionment of tax revenues affected by the proposed legislation. It is not intended to be an estimate of the overall fiscal impact on the state budget if the proposed legislation is enacted.

ATTACHMENT TO REVENUE IMPACT - SB 218 [Introduced] Prepared 1/4/2021

SB 218 proposes to amend 68 O.S. § 2357.43 which relates to the Oklahoma earned income tax credit which proposes to reinstate the refundable aspect of the credit. Beginning with tax year 2022, if the earned income tax credit exceeds the tax imposed by 68 O.S. § 2355, the excess amount shall be refunded.

Under current law, the Oklahoma earned income tax credit is equal to 5% of the federal earned income credit allowed on a taxpayer's federal income tax return. This is a non-refundable tax credit with no carryover provisions.

The effects of this proposal were estimated using the Oklahoma Individual Income Tax Microsimulation Model. The estimated decrease in income tax revenue for tax year 2022 is \$24,401,000. No changes in withholding or estimated tax payments are anticipated; therefore, an estimated revenue decrease of \$24,401,000 in income tax collections is expected in FY23 when the 2022 income tax returns are filed.
