13 authorization requirements and restrictions readily accessible on

16 shall be described in detail but also in easily understandable  
17 language.

18 B. If a utilization review entity intends either to implement a  
19 new prior authorization requirement or restriction or amend an  
20 existing requirement or restriction, the utilization review entity  
21 shall ensure that the new or amended requirement is not implemented  
22 unless the utilization review entity's website has been updated to  
23 reflect the new or amended requirement or restriction.  
24

1           SECTION 6.           NEW LAW           A new section of law to be codified  
2 in the Oklahoma Statutes as Section 6570.6 of Title 36, unless there  
3 is created a duplication in numbering, reads as follows:

4           A. A utilization review entity may not revoke, limit,  
5 condition, or restrict a prior authorization if care is provided  
6 within forty-five (45) business days from the date the health care  
7 provider received the prior authorization.

8           B. In the case of preventive care that has prior authorization  
9 approval, if it has been determined medically necessary by the  
10 medical provider that additional preventive care is needed, it shall  
11 be covered under the initial pre-authorization. For any  
12 subsequently provided preventive care covered by the initial pre-  
13 authorization, it must be in connection to care furnished by the  
14 medical provider. Any care provided to an enrollee that is not in  
15 connection to pre-authorized preventive care shall need to receive  
16 pre-authorization approval.

17           C. A utilization review entity that has made an adverse  
18 determination of both a request for prior authorization and a  
19 subsequent appeal by an enrollees health care provider may be  
20 subject to medical malpractice if it is found that the medical care  
21 furnished in accordance with a utilization review entities approval  
22 of medical care deviated from accepted norms of practice in the  
23 medical community, the recommendation of an enrollees health care  
24 provider, and causes an injury to the enrollee. A utilization

1 review entity shall only be found liable for medical malpractice if  
2 documentation is provided that shows a utilization review entity  
3 undermined the judgment of the enrollees' medical provider and all  
4 relevant information utilized to support the initial request for  
5 prior authorization and appeal of the adverse determination.

6 D. Nothing in this section shall be construed to require pre-  
7 authorization approval of care that is already exempted from a pre-  
8 authorization approval.

9 SECTION 7. NEW LAW A new section of law to be codified  
10 in the Oklahoma Statutes as Section 6570.7 of Title 36, unless there  
11 is created a duplication in numbering, reads as follows:

12 A. A utilization review entity may not require a health care  
13 provider to complete a prior authorization for a health care service  
14 in order for the enrollee to whom the service is being provided to  
15 receive coverage if in the most recent 12-month period, the  
16 utilization review entity has approved or would have approved not  
17 less than eighty percent (80%) of the prior authorization requests  
18 submitted by the health care provider for that health care service.

19 B. A utilization review entity may evaluate whether a health  
20 care provider continues to qualify for exemptions as described in  
21 subsection A not more than once every twelve (12) months. Nothing  
22 in this section requires a utilization review entity to evaluate an  
23 existing exemption or prevents a utilization review entity from  
24 establishing a longer exemption period.

1 C. A health care provider is not required to request an  
2 exemption in order to qualify for an exemption.

3 D. A health care provider who does not receive an exemption may  
4 request from the utilization review entity at any time, but not more  
5 than once per year per service, evidence to support the utilization  
6 review entity's decision. A health care provider may appeal a  
7 utilization review entity's decision to deny an exemption.  
8

9 E. A utilization review entity may only revoke an exemption at  
10 the end of the 12-month period if the utilization review entity:

11 1. Makes a determination that the health care provider would  
12 not have met the eighty percent (80%) approval criteria based on a  
13 retrospective review of the claims for the particular service for  
14 which the exemption applies for the previous three (3) months, or  
15 for a longer period if needed to reach a minimum of ten (10) claims  
16 for review;

17 2. Provides the health care provider with the information it  
18 relied upon in making its determination to revoke the exemption; and

19 3. Provides the health care provider a plain language  
20 explanation of how to appeal the decision.

21 F. An exemption remains in effect until the 30th day after the  
22 date the utilization review entity notifies the health care provider  
23 of its determination to revoke the exemption, or if the health care  
24

1 provider appeals the determination, the fifth day after the  
2 revocation is upheld on appeal.

3 G. A determination to revoke or deny an exemption must be made  
4 by a health care provider licensed in Oklahoma of the same or  
5 similar specialty as the health care provider being considered for  
6 an exemption and have experience in providing the service for which  
7 the potential exemption applies.

8 H. A utilization review entity must provide a health care  
9 provider that receives an exemption a notice that includes:

- 10 1. A statement that the health care provider qualifies for an  
11 exemption from pre-authorization requirements;
- 12 2. A list of services for which the exemptions apply; and
- 13 3. A statement of the duration of the exemption.

14 I. A utilization review entity shall not deny or reduce payment  
15 for a health care service exempted from a prior authorization  
16 requirement under this section, including a health care service  
17 performed or supervised by another health care provider when the  
18 health care provider who ordered such service received a prior  
19 authorization exemption, unless the rendering health care provider:

- 20 1. Knowingly and materially misrepresented the health care  
21 service in request for payment submitted to the utilization review  
22 entity with the specific intent to deceive and obtain an unlawful  
23 payment from utilization review entity; or
- 24 2. Failed to substantially perform the health care service.

1 SECTION 8. NEW LAW A new section of law to be codified  
2 in the Oklahoma Statutes as Section 6570.8 of Title 36, unless there  
3 is created a duplication in numbering, reads as follows:

4 Any failure by a utilization review entity to comply with the  
5 deadlines and other requirements specified in this act will result  
6 in any health care services subject to review to be automatically  
7 deemed authorized by the utilization review entity.

8 SECTION 9. This act shall become effective November 1, 2024.
