

1 **HOUSE OF REPRESENTATIVES - FLOOR VERSION**

2 STATE OF OKLAHOMA

3 2nd Session of the 59th Legislature (2024)

4 HOUSE BILL 3860

By: Ford of the House

5 and

6 **Weaver** of the Senate

7
8
9 AS INTRODUCED

10 An Act relating to school safety; creating the School
11 Safety Interoperability Fund; providing for the
12 appropriation of funds by the Legislature; directing
13 the Department of Public Safety to administer and
14 distribute funds to certain entities; establishing
15 school safety interoperability program requirements;
16 providing for codification; and providing an
17 effective date.

18 BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

19 SECTION 1. NEW LAW A new section of law to be codified
20 in the Oklahoma Statutes as Section 2-151 of Title 47, unless there
21 is created a duplication in numbering, reads as follows:

22 There is hereby created in the State Treasury a fund to be
23 designated as the "School Safety Interoperability Fund". The fund
24 shall consist of monies appropriated to the fund by the Legislature
 and shall be used for acquisitions and maintenance of the school

1 safety interoperability program. The Department of Public Safety
2 shall administer the fund and distribute said funds to any county,
3 municipality, school district, sheriff's department, or municipal
4 police department that establishes a school safety interoperability
5 program. The funds shall only be used for a school safety
6 interoperability program that meets all of the following
7 requirements:

8 1. Encompasses public school districts, charter schools, and
9 private schools throughout the state;

10 2. Enables the deployment of an interoperable multimedia
11 communications system to a user base consisting of public safety
12 agencies and schools providing instruction in any combination of
13 kindergarten programs and grades one through twelve;

14 3. Provides a dynamic, scalable communications environment that
15 allows for the following:

16 a. automated emergency notifications from schools
17 directly to multiple public safety agencies by
18 integrating existing hard or soft panic button
19 solutions,

20 b. automated public safety mutual aid talk groups that
21 bridge disparate land mobile radio systems among
22 multiple public safety agencies in an emergency,

23 c. enables live school cameras to be securely shared with
24 public safety agencies upon emergency incident

1 initiation where the location of the cameras and live
2 views are displayed on the floor plan and may be
3 remotely viewed by first responders from a floor plan
4 view for situational context,

5 d. uses multiple forms of voice and data communications
6 in a secure manner to all users involved in an
7 incident including push-to-talk voice communication,
8 land mobile radio to long term evolution
9 interoperability, location, image, video, and document
10 sharing,

11 e. authenticates system users' identity, location, and
12 operational status during an incident, and

13 f. secures sharing of collaborative incident maps,
14 building floor plans, and images between schools and
15 public safety agency users;

16 4. Integrates with school panic alarm systems that, when
17 activated, establishes direct emergency incident collaboration
18 between schools and public safety agencies, primary law enforcement
19 agencies, public safety answering points, and appropriate mutual aid
20 agencies, and simultaneously shares live video and floor plans
21 through such systems;

22 5. Enables dynamic interoperable radio communications between
23 first responder agencies that may be using incompatible or different
24 radio communications systems or channels;

1 6. Enables each participating entity to maintain discretionary
2 real-time control over its communications, video, and information
3 assets;

4 7. Encrypts all media communications to a standard of at least
5 advanced encryption standard(AES)-256;

6 8. Is certified under the Federal Support Anti-Terrorism by
7 Fostering Effective Technologies Act (SAFETY Act) of 2002, Part 25
8 of Chapter I of Title 6 of the Code of Federal Regulations, as a
9 qualified antiterrorism technology;

10 9. Is compatible and interoperates with the Federal Emergency
11 Management Agency interoperable gateway system for large-scale
12 disaster communications;

13 10. Ensures student and staff privacy by allowing for the
14 sharing of information in an emergency or with incident-based
15 permission; and

16 11. Enables integration to school access control systems to
17 allow remote lock down by law enforcement agencies through the same
18 multimedia system.

19 SECTION 2. This act shall become effective November 1, 2024.
