**Research Analysis**

The proposed committee substitute for HB1294 creates the Foreign Adversary Divestment Act of 2024, prohibiting all state and local managed funds from holding investments in any foreign adversary or any company located within, owned by or controlled by a foreign adversary. The divestment of affected public funds is required to begin immediately, with total divestment completed by January 1, 2027 or within two years of the effective date of the act, whichever is earliest.

The measure directs the State Treasurer to create a list of restricted companies that are associated with a foreign adversary and distribute the list to each state or locally managed fund within 6 months of the effective date of the act. A *foreign adversary* is any country designated by U.S. Secretary of State as a hostile country or a country of particular concern.
