Research Analysis

The proposed committee substitute for HB1723 allows caterers who provide alcoholic beverage sales on the premises of a person applying for an on-premises license to be issued a storage license to store alcoholic beverages purchased on the unlicensed premises during the period of the written agreement and allows the storage license to be transferred to the on-premises applicant when the applicant obtains licensure.

The measure permits the use of an Existing Licensee's license by current applicants of on-premises beer and wine, mixed beverage/caterer combination, or mixed beverage licenses, under the following conditions:

- The applicants must use ABLE Commission licensed employees;
- A written agreement detailing the terms must be submitted to the ABLE Commission;
- The applicant must have submitted a license application to the ABLE Commission;
- All sales of alcoholic beverages during the agreement period are under the Existing License, with beverages stored on the licensed premises;
- The agreement is limited to a maximum of sixty (60) days or until the applicant's license is approved or denied, whichever occurs first; and

Upon the issuance of a license to an applicant, any alcoholic beverages may be transferred by the Existing Licensee to the newly licensed licensee.
