Fiscal Analysis

With the appropriations increase Oklahoma Water Resources Board (OWRB) is expecting to receive for additional staff in FY-2025, it believes the additional work can be absorbed by those positions, and therefore, there is no need for additional funds to fund the measure.

According to the OWRB, this measure would require at least one new staff position for all the monitoring and reporting required. With salary and benefits, OWRB expects the cost of the new staff person to be about One Hundred Thousand Dollars (\$100,000.00). Therefore, the fiscal impact of this measure is an annual amount of \$100,000.
