<b>Impact:</b>	<b>113K (Salary + benefits)</b>

**Research Analysis**

The proposed committee substitute for HB 2747 establishes the Alzheimer's Disease and Related Dementia Infrastructure Act, and creates Office of Alzheimer's Disease and Related Dementia Resource Coordination within the State Department of Health to provide statewide coordination, service system development, and information on education, support, and other available services. The measure requires the office to submit an annual report that details the Alzheimer's State Plan implementation progress, information on service delivery system developments and gaps, research updates, and resources, outreach, and information to The Advancement of Wellness Advisory Council, for review and approval. Upon approval the annual report will be provided to the Secretary of Health and Human Services, the Office of the Governor, the Oklahoma State Legislature, and made publicly available on the State Department of Health's website.

The measure establishes two revolving funds in the State Treasury. The Alzheimer's Disease and Related Dementia Research Fund, and the Dementia Caregiver Support Group and Education Program Development Fund. Both funds will be administered by the State Department of Health's Office of Alzheimer's Disease and Related Dementia Resource Coordination. Awards through each fund will be distributed by awards committees. The measure outlines the committee membership, and establishes a sunset for the fund of 5 years from the enactment. The measure repeals [Title 63, Section 1-879.2](#) relating to Alzheimer's Research Advisory Council – Duties.

**Fiscal Analysis**

if the PCS1 to HB 2747, it would cost the Health Department \$113k in state appropriations. It is currently funded by grant program which they will lose if HB 2747 passes.
