Research Analysis

The Senate amendment revises, but does not substantially alter, the definition of "key participant" and clarifies that noncompliant hemp will be tested after remediation by ODAFF or an ODAFF-approved lab.

HB 3011, as introduced, modifies the Oklahoma Industrial Hemp Program in several ways. The measure:

- Defines the term "key participant," as someone with a direct or indirect financial interest in the hemp farm and requires that a criminal history of key participants be included in new or renewal license applications;
- Requires on-site remediation of noncompliant hemp;
- Requires that in order to sell hemp derivatives for livestock or pet feed, all parts of the plant must not exceed .3% concentration of THC; and
- Requires hemp harvest to occur within 30 days of sampling.
