Research Analysis

The committee substitute to HB 3285 requires a state governmental entity that employs over 500 people to implement a telephone call back system. This provision also applies to agencies that use toll free numbers. Fiscal Analysis

The committee substitute to HB 3285 requires all state entities with more than Five Hundred (500) employees to implement a telephone call back system. Exact costs for the development and implementation of this system are still being determined at this time, but it is expected that this measure would result in an unknown fiscal impact to state budgetary resources.
