

BILL SUMMARY
2nd Session of the 59th Legislature

Bill No.:	HB3568
Version:	CS
Request Number:	10528
Author:	Manger
Date:	3/13/2024
Impact:	FY25: \$0

Research Analysis

The CS to HB 3568 directs the OSBI to promulgate necessary policies, procedures, and forms for participation in a rapid DNA investigative lead program outlining the collection and processing of suspected single source crime scene samples utilizing rapid DNA instrumentation. The measure authorizes the use of rapid DNA technology to test a DNA sample for comparison with samples in the OSBI Combined DNA Index System Database.

Prepared By: Brad Wolgamott

Fiscal Analysis

This measure provides that the Oklahoma State Bureau of Investigation (OSBI) participate in a statewide program for law enforcement agencies related to rapid DNA testing. Officials with OSBI do not anticipate the need for additional funding in FY25 as a result of HB3568, however there may be a need to fund an additional FTE beginning in FY26.

Prepared By: Robert Flipping IV, House Fiscal Staff

Other Considerations

None.
