Fiscal Analysis

HB 3950 subjects employees of a registered long-term care facility to civil penalties, as determined by the State Commissioner of Health, if the individual publicly promotes memory care, Alzheimer's care, or Dementia care as a service of the facility when the facility does not meet the criteria in accordance to the Alzheimer's Dementia and Other Forms Dementia Special Care Disclosure Act.

Officials from OSDH confirmed the provisions of this measure are objective within the Department's existing resources. Therefore, this measure is not anticipated to have a direct fiscal impact on the state budget or appropriation.
