Fiscal Analysis

SB 1754 removes language relating to the Santa Claus Commission (Commission); thereby repealing it. The Commission's fund currently permits donations. However, once the function of the Commission is brought internal to the agency by the passage of SB 1754, the funding will come exclusively from within the existing agency budget of the Oklahoma Office of Juvenile Affairs (OJA). After communication with OJA, and due to the nominal amount spent each year, the annual budget impact is anticipated to be minimal.
