Research Analysis

SB 2039 creates the Domestic Violence and Sexual Assault Services Revolving Fund within the Office of the Attorney General. The Attorney General is to expend monies from the fund in order to provide statewide access to a stable system of delivery of services to victims of domestic violence and sexual assault, promote a coordinated community approach to serving victims of domestic violence and sexual assault, and provide access to services through dedicated support of underserved population programs. Any entity receiving monies from the fund must have full certification as a domestic violence and sexual assault victim service agency, be a nonprofit, and be subject to an annual audit. Additionally, such entities must not have received administrative sanctions.

The first 5% of monies from the fund are to go to qualified entities serving underserved populations. Additionally, \$200,000.00 is to be provided to each qualified entity operating a shelter program and \$150,000.00 is to be provided to each qualified entity operating a crisis intervention center. Grants are to be proportionally reduced if grants awarded exceed the monies in the fund. The measure splits the fund into two accounts. One account is to receive 30% of the monies in the fund. The remainder is to be deposited in the other account. Monies in the 30% account are to be expended in counties with a population of 600,000 or greater. Monies from the other account are to be expended in counties with a population of less than 600,000.
