**Bill Analysis**

SB 1064 creates a \$1.00 fee that shall be charged by employees of salvage pools, salvage disposal sales, auctions, dealers, or licensed automotive dismantler and parts recyclers for performing a vehicle inspection. If Service Oklahoma determines an entity authorized to conduct such services falsified an inspection form or does not obtain a required inspection, the measure permits Service Oklahoma to revoke or suspend the person's authority to perform an inspection or conduct business.
