Bill Analysis

SB 1472 directs youth athletic associations to require coaches to complete an online or residence course approved by the State Department of Health which provides information and awareness of actions and measures that may be used to decrease the likelihood that a youth athlete will sustain a serious injury while engaged or participating in a high-risk youth athletic activity. Coaches may complete a training course providing such information as an alternative to the online course. The association shall also require the coaches to sign a statement attesting that the coach or personnel has completed the course.
