Bill Analysis

SB 1622 directs a school athletic association to have a written policy that allows a student who enrolls in a school district in which the student is not a resident to participate in interscholastic activities or contests upon enrollment if the student transferred to the district prior to his or her junior year. The measure repeals a section of law that requires a student who enrolls in a district in which he or she is not a resident to wait for one year prior to being eligible to participate in school-related extramural athletic competitions unless granted a hardship waiver.
