

Bill Summary
2nd Session of the 59th Legislature

Bill No.:	SB 1737
Version:	INT
Request No.	3413
Author:	Sen. Gollihare
Date:	01/22/2024

Bill Analysis

SB 1737 provides that any person or entity that suffers from a business interruption or economic injury arising from threats or stalking using telecommunication technology shall have a cause of action against the offending party and may seek actual damages, injunctive relief, and punitive damages. Civil liability shall be established by clear and convincing evidence as established by the trier of fact. The measure also outlines what may be used to calculate actual damages.
