

Bill Summary
2nd Session of the 59th Legislature

Bill No.:	SB 1850
Version:	INT
Request No.	3266
Author:	Sen. Pugh
Date:	01/24/2024

Bill Analysis

SB 1850 directs the Oklahoma School Security Institute to develop and publish on its website school mapping guidelines for public and private schools on its website. If a school decides to map its campus, it shall be required to use these guidelines. Such mapping data guidelines include keeping the data compatible with software platforms used by various public safety agencies, keeping the data compatible with security software platforms in use by the specific school, making the data available in a print format, verifying the data, orienting the mapped data to true north, orienting the data to current aerial imagery, labeling sites in the data, ensuring the labels match the actual school ground, overlaying the data with x and y coordinates, and updating the data in conjunction with corresponding updates to school mapping data used by various public safety agencies.
