Fiscal Analysis

SB 1336 creates the Oklahoma Boating Access Revolving Fund and appropriates \$10 million to the fund to be used by the Oklahoma Wildlife Conservation Commission to expand public access to lakes and rivers by leasing, taking of easements, development, management, and enhancement of acquired lands. ODWC can match 3-1 federal dollars, eventually equating to an additional \$30 million for boating access but it could take up to 25 years for that amount of federal funds to be available for use. Expenditures would most be from the appropriation and limited to that amount.

FY'25 Impact: \$10 million

Full Year Impact: \$10 million
