**Fiscal Analysis**

SB 1392 deposits all proceeds from the Uninsured Vehicle Enforcement Diversion Program into the General Revenue Fund. The measure also requires the district attorney's office or the District Attorney Council to provide notice that the fee will not be necessary if the owner provides proof of insurance coverage. While this measure would have no overall impact to the state, this would remove a revenue stream from the District Attorneys Council. The DAC projects this revenue to be \$2,158,366.24 for FY'25.

**FY'25 Impact:** No Impact
