Research Analysis

The second proposed committee substitute for HB1379 modifies numerous provisions governing tax increment financing (TIF) district by:

- requiring voter approval to create a TIF district. Current law only requires a majority vote of the governing body to approve the TIF;
- eliminating the ability for a TIF review committee to hold executive sessions and withhold confidential information;
- deleting references to blighted areas from the Local Development Act;
- prohibiting the TIF review committee members from receiving things of value from any person or entity that would benefit from the TIF;
- requiring each member of the review committee to complete 12 hours of educational instruction prior to any committee vote to recommend a TIF;
- requiring the review committee to meet at least once every year;
- requiring the review committee to hear presentations from supporter and opponents of the TIF prior to voting; and
- requiring any for profit entities that would benefit from the TIF to submit information on its business structure, governance policies and formation details.
