

BILL SUMMARY
2nd Session of the 59th Legislature

Bill No.:	HB 2672
Version:	CCS
Request Number:	11134
Author:	Rep. Baker
Date:	5/30/2024
Impact:	No Impact

Research Analysis

The conference committee substitute for HB 2672 requires students to complete certain modified graduation requirements in 8th through 12th grade beginning in the 2025-26 school year. The modified requirements include four units of math, with one being Algebra I and another being either Algebra II or Geometry, and six pathway units that align with each student's Individual Career and Academic Plan. District boards of education must also approve three additional elective units of any subject. A postsecondary-approved full-time CareerTech program or locally approved course may satisfy the required physical science or remaining math units.

The measure also requires the State Board of Career and Technology Education and State Regents for Higher Education to collaborate with SDE, adopt a joint plan for ensuring academic expectations, and submit the plan to the legislature. Additionally, CareerTech programs and certain AP computer science courses are no longer required to be approved by the State Board of Education for high school credit.

Prepared By: Autumn Mathews

Fiscal Analysis

As written, the measure is not anticipated to result in a negative fiscal impact on the state budget or appropriations.

Prepared By: Cole Stout, House Fiscal Staff

Other Considerations

None.
