Fiscal Analysis

HB 3507 broadens the range of fees a seller can transfer to the consumer or cardholder in any consumer credit sales transaction by allowing a seller to impose a surcharge for the processing fee on consumers who elect to pay by credit or debit card instead of cash, check, or other similar payment methods.

The provisions of this measure target an industry without imposing action on appropriated state agencies. Therefore, this measure is not anticipated to have a direct fiscal impact on the state budget or appropriations.

The committee substitute does not affect the fiscal impact of this measure.
