

BILL SUMMARY
2nd Session of the 59th Legislature

Bill No.:	SB1264
Version:	HCS
Request Number:	10960
Author:	Rep. Miller
Date:	4/16/2024
Impact:	Please see previous summary of this measure

Research Analysis

The committee substitute for SB 1264 requires health benefit plans to cover clinical genetic testing for inherited gene mutations and evidence-based cancer imaging when recommended by a health care provider. The coverage applies to individuals at increased risk of cancer and is not subject to annual deductibles, copayments, or coinsurance limits. If coverage would result in health savings account ineligibility, the measure only applies to health savings accounts with qualified high deductible health plans.
