

Bill Summary
1st Session of the 59th Legislature

Bill No.:	SB 440
Version:	INT
Request No.:	350
Author:	Sen. Garvin
Date:	01/17/2023

Bill Analysis

SB 440 directs the Executive Director of the Oklahoma Medical Marijuana Authority to promulgate rules to limit the tetrahydrocannabinol potency of medical marijuana and medical marijuana products sold in medical marijuana dispensaries. The measure provides that the THC content shall not exceed 30% delta-9 tetrahydrocannabinol potency for medical marijuana and 60% delta-9 tetrahydrocannabinol potency for medical marijuana products. Additionally, the measure caps the potency of delta-8 tetrahydrocannabinol potency for medical marijuana and medical marijuana products at 2%. The measure provides a 0% cap for delta-10 tetrahydrocannabinol and all other isomers, precursors, and other variations of tetrahydrocannabinol.
