Bill Analysis

SJR 16 submits to the people a constitutional amendment that allows for the creation of public infrastructure districts. The SJR authorizes municipalities to approve the creation of such district using district bonds to pay for all or part of the cost of public improvements within such districts. The cost of all indebtedness so incurred shall be levied and assessed by the board of trustees of a public infrastructure district on the property benefited by such improvements following the passage and approval of the organization of a public infrastructure district. The measure outlines restrictions on the placement of such districts. No such district may be created without first obtaining the signatures of 100% of the surface property owners within the applicable area.
