23 would exceed the federal obstruction standards as contained in 14
24 CFR, Part 77. Permits from the local airport zoning authority will

1 be required only within an airport hazard area where federal
2 standards are exceeded and if the proposed construction is within:

3 1. A 10-nautical mile radius of the geographical center of a
4 publicly owned or operated airport, a military airport, or an
5 airport open for public use which has a published instrument
6 approach procedure;

7 2. A 6-nautical mile radius of the geographical center of a
8 publicly owned or operated airport, a military airport, or an
9 airport open for public use which has no published instrument
10 approach procedure and has runways in excess of three thousand two

12 3. A 2.5-nautical mile radius of the geographical center of a
13 publicly owned or operated airport, a military airport, or an

20 protected.

21 C. Permit requirements of subsection A of this section shall
22 not apply to projects which received construction permits from the
23 Federal Communications Commission for structures exceeding federal
24 obstruction standards prior to May 20, 1975; nor shall it apply to

1 previously approved structures now existing, or any necessary
2 replacement or repairs to such existing structures, so long as the

21 aeronautics, the Oklahoma ~~Aeronautics Commission~~ Department of
22 Aerospace and Aeronautics may review any structure erected, altered,
23 or modified since January 1, 1996, in which no permit was secured
24 from the local airport zoning authority because of the absence of a

1 local airport authority. The Oklahoma ~~Aeronautics Commission~~
2 Department of Aerospace and Aeronautics shall determine whether such
3 structures meet the requirements set forth in this section. If the
4 structures do not meet the requirements as set forth in this

6 and Aeronautics may request the owners of such structure to make any
7 necessary modifications to protect the health, safety and welfare of
8 the public, including, but not limited to, altering, marking,
9 mapping, or identifying such structure. The Oklahoma ~~Aeronautics~~
10 ~~Commission~~ Department of Aerospace and Aeronautics may assist the

22 SECTION 18. AMENDATORY 3 O.S. 2021, Section 421, is
23 amended to read as follows:

1 Section 421. A. The Oklahoma ~~Aeronautics Commission~~ Department
2 of Aerospace and Aeronautics is hereby established as the
3 clearinghouse for unmanned aircraft systems (UAS) in ~~the State of~~
4 ~~Oklahoma~~ this state and shall be designated as the agency of this
5 state for the promotion, enhancement and development of UAS and to
6 ensure the safe integration and use of this new technology within
7 the state. The purpose of this clearinghouse is to create a
8 partnership between those entities that currently operate UAS, those
9 that desire to use this technology in the future and other entities
10 that can support the research and development of UAS to ensure that
11 ~~the State of Oklahoma~~ this state can more effectively respond to the
12 needs of this critical sector of the aviation and aerospace
13 industry. In the operation of this clearinghouse, the ~~Commission~~
14 Department shall cooperate, assist and coordinate with the federal
15 government, agencies of this state, tribal entities, municipalities
16 and other persons in the development of unmanned aircraft systems
17 throughout the state to ensure the acceptance of this technology and
18 the successful integration of UAS into the National Airspace System.
19 Contingent upon the availability of funds, the Oklahoma ~~Aeronautics~~
20 ~~Commission~~ Department of Aerospace and Aeronautics may use
21 established program processes or may contract with other qualified
22 entities to carry out the duties and responsibilities of ~~this act~~
23 the Unmanned Aircraft Systems Development Act of 2021.
24
25

1 B. The primary goal of the UAS clearinghouse within the
2 ~~Commission~~ Department is to establish a central point within state
3 government to develop the strategy for how ~~the State of Oklahoma~~
4 this state can become a leader in the UAS industry. It will focus
5 the collective resources, knowledge, information and assets within
6 state government to ensure coordinated efforts amongst all parties.
7 The clearinghouse will:

8 1. Conduct research on what other states and localities are
9 doing insofar as their UAS rules and regulations so that it can
10 provide recommendations to ensure ~~Oklahoma~~ this state is in the best
11 position within the industry;

12 2. Organize and coordinate the application for any UAS test
13 site, integration opportunity, pilot program or grant funding on
14 behalf of ~~the State of Oklahoma~~ this state;

15 3. Maintain a registry of UAS being operated by state agencies,
16 except those UAS that are part of a university-affiliated research
17 program; and

18 4. Maintain a registry of educational institutions that offer
19 training programs for users of UAS.

20 SECTION 19. AMENDATORY Section 3, Chapter 203, O.S.L.
21 2022 (3 O.S. Supp. 2022, Section 413), is amended to read as
22 follows:

23 Section 413. A. There is hereby created within the Oklahoma
24 ~~Aeronautics Commission~~ Department of Aerospace and Aeronautics, the

Oklahoma Air Service Development Grant Program. The Oklahoma Air Service Development Grant Program (OASDGP) is designed to offer financial assistance by grant to private or public entities for the purpose of assisting commercial air service development. Grant funding is administered based on merit and the potential for a specific project to enhance the state's economy. Grants are one-time awards.

B. Grant funding can be used for commercial air service development projects and include minimum revenue guarantees for specific new routes, marketing and advertising of service, market study and research projects to develop data for a business case for new service, start-up cost offsets to reduce the cost of an airline beginning service, and other innovative risk sharing models to support the introduction of new airline service in the state. Grants must be used to recruit service in an airport-pair that has no current, daily scheduled airline service. Grants may not be used to support current routes or to recruit a second carrier to an airport-pair.

C. Public, private and nonprofit entities within ~~Oklahoma~~ this state that have sufficient financial and management capacity to complete the requested project are eligible for funding under this program. Eligible entities include:

1. Airport sponsors of publicly owned airports;
2. Oklahoma municipalities;

1 3. Chambers of commerce; or

2 4. Community organizations that promote economic development.

3 D. Each application must include a detailed business plan with
4 supporting data for the proposed project. The business plan should
5 include:

6 1. Available passengers for the route including local demand
7 and connecting demand;

8 2. Detail on available revenue;

9 3. Current and historical fare data relative to peers and how
10 the project will lower fares; and

11 4. Business demand for companies based in ~~Oklahoma~~ this state
12 or doing business in ~~Oklahoma~~ this state that may use the proposed
13 route.

14 E. Projects with airline support will be considered first for
15 funding under this program. Airline support can be evidenced by a
16 letter, dated, signed, and on airline letterhead, or other
17 communication directly from an airline stating its support for the
18 funding and its interest in the proposed route. An airline letter
19 of support is not required for funding to be allocated to a project
20 but will be used in prioritizing fund awards.

21 F. To be considered for state funding under this program,
22 applicants must demonstrate the ability to provide a minimum twenty
23 percent (20%) of all funding for the project through local sources.
24 Local funding should be dedicated to the project and evidenced by

1 letters of commitment before an application is submitted. Any
2 private enterprise or nonairport, nonmunicipal, nonprofit entity
3 must have a letter of credit to qualify for a grant without a public
4 partner.

5 G. Each application should include a narrative organized into
6 seven (7) sections:

- 7 1. A proposal summary;
- 8 2. Applicant organization description, history, and ability to
9 fund the project;
- 10 3. Air service background and history of the airport/market;
- 11 4. Project description, target route, and specific business
12 plan for service;
- 13 5. Timeline;
- 14 6. Budget including local funding; and
- 15 7. Letters of support.

16 H. Applications will first be vetted for completeness. Any
17 application which does not include the information listed in
18 subsection G will be eliminated from consideration. Any application
19 that does not include local funding for at least twenty percent
20 (20%) of the project cost will be eliminated from consideration.
21 Any applicant that cannot demonstrate he or she is working with an
22 airport sponsor on the project will be eliminated from
23 consideration.

1 I. Once applications have been deemed to meet minimum
2 requirements, they will be evaluated for funding against each other,
3 with special attention paid to the following criteria in this order:

4 1. The viability of the business case for service and the
5 opportunity for service to be sustainable;

6 2. The need for the service in the community and region;

7 3. The challenges with current air service that could be
8 rectified with grant funding;

9 4. Share of local funding versus grant funding;

10 5. Airline support for the project;

11 6. Broad-based stakeholder support for the project; and

12 7. The ability to use the funding in a timely manner.

13 The Oklahoma Department of Commerce shall be part of this review
14 process. The state may request additional information from the
15 applicant and may require a written response from the applicant for
16 any outstanding questions. The state reserves the right to require
17 formal presentations from each applicant to explain the proposed
18 project.

19 J. The state will enter into a grant agreement contract with
20 recipients prior to distributing program funds. The agreement shall
21 include:

22 1. The specific project receiving grant funding;

23 2. The maximum dollar amount of state funding;

24 3. Effective dates of the grant;

1 4. Rights to terminate the grant agreement;

2 5. Inspection and reporting requirements to verify project
3 status and expenditures; and

4 6. Conditions of disbursement of grant funds including
5 obligation to repay funds if the terms of the agreement are not met.

6 The grant agreement contract shall require the awardee to
7 provide ongoing quarterly reports stating progress and detailing any
8 activity related to the project.

9 SECTION 20. AMENDATORY Section 4, Chapter 203, O.S.L.
10 2022 (3 O.S. Supp. 2022, Section 414), is amended to read as
11 follows:

12 Section 414. There is hereby created in the State Treasury a
13 revolving fund for the Oklahoma ~~Aeronautics Commission~~ Department of
