Of the Engrossed Bill

By deleting the content of the entire measure, and by inserting in lieu thereof the following language:

AMEND TITLE TO CONFORM TO AMENDMENTS

Amendment submitted by: Cody Maynard

Adopted: _____

Reading Clerk

STATE OF OKLAHOMA

2nd Session of the 60th Legislature (2026)

PROPOSED POLICY
COMMITTEE SUBSTITUTE
FOR
HOUSE BILL NO. 3545

By: Maynard

PROPOSED POLICY COMMITTEE SUBSTITUTE

An Act relating to technology; providing definitions; clarifying applicability of act; establishing prohibited uses of artificial intelligence (AI) by state agencies; establishing allowed uses of AI and applicable restrictions; directing state agencies to take action and report compliance to the Office of Management and Enterprise Services (OMES); requiring future AI systems comply with act; directing OMES to provide report on AI systems used by state agencies; providing for codification; and providing an effective date.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 200 of Title 75A, unless there is created a duplication in numbering, reads as follows:

A. As used in this act:

1. "Artificial intelligence" or "AI" means the ability of a machine to display human-like capabilities for cognitive tasks such as reasoning, learning, planning, and creativity. AI systems can

1 adapt their behavior to a certain degree by analyzing the effects of
2 previous actions and operating under varying and unpredictable
3 circumstances without significant human oversight;

4 2. "Deepfake" means a video of a person in which their face or
5 body has been digitally altered so that they appear to be someone
6 else, they appear to be saying something that they have never said,
7 or they appear to be doing something that they have never done. A
8 deepfake is typically used maliciously or to spread false
9 information;

10 3. "Generative AI" means AI that can generate text, images, or
11 other media in response to prompts;

12 4. "High-risk AI decision" means any recommendation,
13 classification, scoring, or determination generated in whole or in
14 part by an artificial intelligence system that, once implemented by
15 a state agency, materially affects the legal rights, benefits,
16 obligations, or liberties of an individual person or group of
17 persons and cannot reasonably be reversed; and

18 5. "State agency" means any department, commission, board,
19 institution, bureau, office, law enforcement agency, or other
20 entity, by whatever name called, including the legislative and
21 judicial branches of state government, established in the state
22 constitution, statutes, session laws, or executive orders.

23 B. This act shall apply to all computer systems operated by any
24 state agency, except for systems used in research by state-funded

1 institutions of higher learning. Also excepted are installed
2 consumer systems in common personal use, including, but not limited
3 to, facial recognition used to unlock a smartphone.

4 C. The following uses of AI by state agencies shall be
5 prohibited:

6 1. Cognitive behavioral manipulation of individual persons or
7 specific groups of persons;

8 2. Classifying persons based on behavior, socioeconomic status,
9 or personal characteristics in a manner that results in unlawful
10 discrimination prohibited by state or federal law;

11 3. Real-time and remote biometric identification systems used
12 for surveillance in public spaces, such as facial recognition,
13 except when used to locate a missing or abducted person; and

14 4. Deepfakes when used for any deceptive or malicious purpose.

15 D. Use of AI by state agencies shall be allowed under the
16 following circumstances and with the following restrictions:

17 1. No high-risk AI decision shall take effect unless reviewed
18 and approved by a human employee or officer of the state agency who
19 has decision-making authority and is trained in and aware of the
20 limitations of the AI system;

21 2. Any material produced by generative AI that has not been
22 reviewed, and possibly edited by a human in an appropriate
23 responsible position, must be accompanied by a disclosure that the
24 content was generated by AI; and

1 3. In all other circumstances in which a human user is
2 interacting with an AI system, either directly or indirectly, the
3 user must be informed that they are interacting with an AI system.

4 E. All state agencies shall take the following actions no later
5 than nine (9) months after the effective date of this act and report
6 their compliance with the Office of Management of Enterprise
7 Services (OMES):

8 1. Review the use of AI in their computer systems to verify
9 that they comply with the provisions of this act. Any AI system
10 that is prohibited shall be removed; and

11 2. Modify all procedures relative to any use of AI that are
12 inconsistent with this act so that these procedures are consistent
13 with the requirements of this act.

14 F. Any AI systems newly deployed by a state agency after the
15 effective date of this act shall comply with the provisions of this
16 act. All newly implemented procedures relative to any use of AI
17 that are implemented by a state agency after the effective date of
18 this act shall be consistent with the requirements of this act.

19 G. On December 1, 2026, and every year thereafter, OMES shall
20 provide to the Governor, the Speaker of the Oklahoma House of
21 Representatives, and the President Pro Tempore of the Oklahoma State
22 Senate a report summarizing AI systems identified by state agencies,
23 recording which of those systems were prohibited and removed in
24 compliance with this act, which systems are allowed according to

1 this act, and what procedures have been implemented to ensure that
2 the procurement and use of these systems will be in compliance with
3 this act. This report shall be updated annually to include new
4 systems that state agencies have purchased. All such reports shall
5 also be posted on the OMES website.

6 SECTION 2. This act shall become effective November 1, 2026.
