

An Act

ENROLLED HOUSE
BILL NO. 2084

By: Blair and Deck of the House

and

Daniels of the Senate

An Act relating to professions and occupations;
amending Section 3, Chapter 269, O.S.L. 2024 (59 O.S.
Supp. 2024, Section 1688.1), which relates to
continuing education requirements; modifying license
renewal and continuing education requirements; and
providing an effective date.

SUBJECT: Professions and occupations

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. AMENDATORY Section 3, Chapter 269, O.S.L.
2024 (59 O.S. Supp. 2024, Section 1688.1), is amended to read as
follows:

Section 1688.1. A. 1. Effective January 1, 2026, no
contractor or journeyman license shall be renewed unless the
licensee has completed twelve (12) hours of continuing education
every three (3) years or thirty-six (36) months preceding ~~the~~
~~expiration date of the license or registration certificate~~ license
renewal. If a license expires before the licensee completes the
continuing education requirement, any continuing education that is
completed while the license is expired will be applied to the
continuing education requirement for the thirty-six (36) months
preceding the date the license expired. Once the continuing
education requirement for the expired license is met, along with any
other requirements, the expired license may be renewed. Twelve (12)
hours of continuing education will have to be completed in order to
meet the continuing education requirement for the subsequent thirty-
six-month period. The continuing education course and instructor

shall be approved in advance by the Committee of Electrical Examiners. Exceptions to advance approval, or post-course approval, may be allowed by the Committee, or its designee, for substitute instructors in emergency situations when written notice of the emergency is provided to the Committee, or its designee, within seven (7) days of the course. The location of continuing education courses shall be at the discretion of the course provider and may be scheduled during the workday at the discretion of the course provider. The continuing education material shall cover six (6) hours of codes and revisions adopted by the Oklahoma Uniform Building Code Commission (OUBCC). The remaining six (6) hours may include the study of: electrical circuit theory and calculations, wiring methods, grounding and bonding, transformer and motor theory, electrical circuits and devices, control systems, alternative energy systems including energy storage, safety related to the electrical industry as defined by NFPA 70E, manufacturers' installation of equipment or parts, the Electrical License Act, the trade regulations as set forth in this act as well as the rules of the Construction Industries Board, and other trade subject matters approved by the Committee.

2. Effective January 1, 2026, no apprentice shall be permitted to reregister unless the apprentice registrant has completed three (3) hours of continuing education every year preceding ~~the expiration date of the registration certificate~~ re-registration. If a registration expires before the registrant completes the continuing education requirement, any continuing education that is completed while the registration is expired will be applied to the continuing education requirement for the year preceding the date the registration expired. Once the continuing education requirement for the expired registration is met, along with any other requirements, the apprentice is allowed to re-register after having an expired registration. Three (3) hours of continuing education will still have to be completed in order to meet the continuing education requirement for the subsequent registration year. The continuing education course and instructor shall be approved in advance by the Committee. Exceptions to advance approval, or post-course approval, may be allowed by the Committee, or its designee, for substitute instructors in emergency situations when written notice of the emergency is provided to the Committee, or its designee, within seven (7) days of the course. The location of continuing education courses shall be at the discretion of the course provider and may be scheduled during the workday at the discretion of the course provider. The continuing education material shall cover a combination of the codes and revisions adopted by the OUBCC,

Oklahoma electrical industry regulations as well as the rules of the Construction Industries Board, and "electrical safety" as defined by NFPA 70E, other trade subject matters approved by the Committee, or approved continuing education for the contractor or journeyman. Notwithstanding the provisions of this subsection, if an apprentice is a student apprentice or is enrolled and attending an approved course, the continuing education shall not be required.

B. The Construction Industries Board shall amend its rules, wherever applicable, to conform to the provisions of the Electrical License Act.

SECTION 2. This act shall become effective November 1, 2025.

Passed the House of Representatives the 25th day of March, 2025.

Presiding Officer of the House
of Representatives

Passed the Senate the 30th day of April, 2025.
