- d. otherwise determined by the Governor, in consultation with the Attorney General, to pose a national security, economic security, or supply chain risk to the United States. The term includes any entity that is owned, controlled by, or subject to the jurisdiction or direction of a foreign adversary nation, including state-owned enterprises, instrumentalities, or companies operating under compulsory national laws.
- B. The Corporation Commission shall implement standards to prioritize affordable, reliable, and clean energy security within this state by:
- 1. Ensuring that this state prioritizes fuel sources primarily produced within the United States, with the exception of nuclear resources and generation;
- 2. Prohibiting the use of critical materials as defined by the federal Energy Act of 2020 that are sourced or manufactured by or in a foreign adversary nation or subject to the provisions of 19 U.S.C., Section 1307;
- 3. Prioritizing infrastructure and components built in this state and the United States that are necessary to deliver energy to customers of this state; and
- 4. Ensuring a sufficient supply of green energy sources that is dispatchable to meet the demands of residential and commercial
