Fiscal Analysis

The measure as currently written is not anticipated to result in a negative fiscal impact on the state budget or appropriations due to permissive language. However, in consultation with the Regents, using available data, it is assumed that approximately 300 students would qualify and it is assumed that 80% would attend college in Oklahoma. As such, it is anticipated that this program would have a fiscal impact of approximately \$2,000,000.

There is currently \$2 million appropriated to the State Regents for Higher Education for the purposes of implementing this program.
