Research Analysis

The CCS for HB2262 adds that a facility advertising memory care must disclose the type of care provided. The measure adds that a referral agency provide any representative of a person who has notified the referral agency of a Alzheimer's or other dementia diagnosis who is considering placement electronic or physical access to the form for each facility. The State Department of Health will maintain a public searchable database of forms. If no form is available from the Department, this will not apply. Neither a facility or referral agency will liable for the action or inaction of others.

The measure provides that if a facility violates any of the act's provisions, they will be subject to established notice and enforcement provisions. The measure also requires a poster be in a conspicuous location in a Alzheimer's dementia or other forms of dementia unit stating that if such persons or a representative were not given a copy of the disclosure form that they may file a complaint with the Consumer Protection Unit of the Office of Attorney General.
