Research Analysis

The policy committee recommendation to HB 2975 adds an additional nutrient plan amendment option for poultry waste removed off-site and land-applied continuing for the next Six (6) years. This measure adds a misdemeanor offense punishable by a fine of no more than Five Thousand Dollars (\$5,000.00) for any person to sell, transfer, do business in sales of poultry waste, or to advertise for sale more than 10 tons of poultry waste per calendar year without a valid poultry waste applicator's certificate or Oklahoma Department of Agriculture, Food, and Forestry (ODAFF) registered poultry feeding operation. This measure also updates annual reporting requirements for poultry waste applicators to the ODAFF.

Fiscal Analysis

The policy committee recommendation to HB 2975 modifies the requirements of certified poultry waste applicators as well as establishes a potential fine for individuals meeting certain criteria regarding poultry waste who have not obtained a valid poultry waste applicator's certificate from the Oklahoma Department of Agriculture, Food, and Forestry (ODAFF). Per ODAFF, these modifications would have no fiscal impact on the agency; therefore, this measure has no direct fiscal or revenue considerations for the state.
