

BILL SUMMARY
2nd Session of the 60th Legislature

Bill No.:	HB 3031
Version:	INT
Request Number:	13915
Author:	Rep. Lowe
Date:	2/6/2026
Impact:	No Impact

Research Analysis

HB 3031, as introduced, requires the State Department of Education to create and maintain a course numbering system for all high school courses that count toward graduation and align with Oklahoma Academic Standards.

The measure suggests a six-digit composition where the first two digits identify the main subject such as mathematics or ELA; the second set of two digits represent the set of Oklahoma Academic Standards within subject that align with the course such as Algebra 1, Literature, Economics; and the final two numbers are used to differentiate between class sections for the same course.

The system must be developed by March 31, 2027 and implemented starting the 2027–2028 school year. The bill also creates a 7-member waiver panel to review and approve courses that don't fully align with state standards.

Fiscal Analysis

The measure in it's current form is not anticipated to result in a negative fiscal impact for the state budget or appropriations.
